Course Number: AC101
OCAS Code: 
Course Length: 15 hours
Career Cluster: Transportation
Career Pathway: Automotive Service
Career Major: Automotive Service Technician, Automotive Maintenance Light Repair Technician, Air Conditioning Technician,
Pre-requisite: Automotive Introduction
Course Description: This course covers the automotive heating systems, air conditioning systems, parts identification and function, and system operations. Also in this course the students will cover the refrigerants used in air conditioning systems and how to identify them along with Federal Legislation. Temperature control components and systems will also be identified. Students will learn about the cooling system components, identifying coolant type, checking and adjusting coolant levels as well as checking and replacing coolant hoses. Students will also learn to flush and pressure test the coolant system.

Instructional Philosophy: To provide a training program that is of merit both educationally and ethically while effectively providing the individual learner the opportunities, knowledge and skills necessary to succeed in the workplace as well as life.

Course Goals: Upon successful completion of this course, the student will be able to:

Competencies:
HVAC Systems
HVAC systems: Refrigerants
HVAC systems: Climate control
Checking a heater system
Checking an A/C system
Checking A/C hoses & pipes
Locating a leak in A/C systems
HVAC systems: Legislation
Cooling Systems
Cooling systems: Fundamentals
Checking & adjusting coolant levels
Draining & refilling coolant
Checking & replacing coolant hoses
Pressure testing a cooling system
Flushing a cooling system
Cooling systems: Water pumps
Cooling systems: Thermostats
Cooling systems: Radiators

Major Course Projects: Students will perform tasks relating to the Automotive Service Industry as per standards identified by the National Automotive Technicians Education Foundation (NATEF). Students will complete repair orders each day and will document completion of
Project Outline:

competencies on competency profiles tracking individual progress and accomplishment. Projects will include performing tasks on mock ups, shop vehicles, and live work as student skills progress. These projects will reinforce classroom theory instruction and will require the student to consult industry service information during the course of task performance.

Instructional Delivery Plan:

The instruction for this course will be comprised of multiple methods designed to promote and accommodate different learning styles including classroom lecture, classroom demonstrations, shop demonstrations, hands on learning activities, classroom discussion, interactive media, textbook, computer based learning activities, research projects, guest speakers, student presentations, and interactive learning with CPS (Classroom Performance System). Students will be required to practice the skills associated with the instructional content and will be required to work independently and also in teams. Assignments will require students to use academic skills in math, science, and language arts.

Assessment Plan:

Students will be assessed according to three basic kinds of learning. Knowledge: Does the student possess the required knowledge to perform a specific competency? Skills: Does the student possess the necessary coordination to perform the task/competency? Attitude: Will the student perform the task/competency on the job after learning to do it? Students will also be assessed according to the basic work skills of attendance and promptness. Soft skills will be assessed in the Academic Career Center.

50% Daily work- Performance of technical skills on job, work habits, safety, clean-up, participation
50% Written assignment- Repair orders, textbook assignments, etc.

Grading Scale:
A  90-100  Exceeds expectations
B  80-89  Meets industry standards and expectations
C  70-79  Passing grade, but does not meet some standards
D  60-69  Passing, but only meets the minimum standards
F  Below 60  Failing, does not meet minimum standards

Alliance Credit Offered:
OSU Okmulgee

Industry Alignments:
ASE Certification, ODCTE Certification,

End of Instruction Industry Assessment:
ASE Certification, ODCTE Certification,

Resources:
Automotive Excellence Vol. 1 and Vol. 2
Modern Automotive Technology
Introduction to Automotive Service: Fundamental Concepts
CDX Global Interactive Training
Snap On Shop Key
Alldata
