

BioMedical Sciences PROJECT LEAD THE WAY PLTW

• DESCRIPTION:

BioMedical Sciences uses Project Lead The Way (PLTW) curriculum to enhance student learning in the fields of biology, anatomy, advanced mathematics and technology. The curriculum is hands-on and scenario based to allow students an opportunity to apply their knowledge and problem solving skills to complete a task. While BioMedical Sciences leans toward careers in the medical field, any student interested in a career in medicine, engineering, technology or education will benefit from the skills learned in this class. NWTC is accredited by the Oklahoma State Department of Education.
